

Ep EFL253 S elektrische heftruck (2.500 kg)

General features

Brand	Ep
Subcategory	Forklift
Construction year	2025
Color	Red
General condition	Very good
Fuel	Electric
CE marking	Yes

Characteristics

Empty weight	3.890kg
Length	360cm
Width	105cm
Cabin	Open
Lifting capacity	2.500kg
Lifting height	4.800mm
Mast type	Triplex
Clearance height	2.100mm

Ep EFL253 S elektrische heftruck (2.500 kg)

Description

Boost your productivity The EFL series offers the perfect combination of style and functionality. With a top speed of 16/17 km/h and a battery capacity of 80V/460Ah, this truck is ideal for many intralogistics operations. The maximum 20/25% climbing capability and a lifting speed of 0.4/0.5 m/s ensure stability on slopes. Adaptable cabin for weather conditions The new safety cabin is bolted instead of welded, making it easy to dismantle to suit all weather conditions. The cab is also easy to fit or remove on different trucks. 80V Li-Ion battery technology This modern battery not only offers efficiency and long service life, but can also be recharged in between. Ideal for a flexible working day without interruptions. Maintenance-free battery No more hassle with air filters, oil filters or starter batteries. Easily charge at your convenience and keep your work schedule intact. Smart and safe extras The workspace of the new EFL series is more spacious, with a simplified control panel and a comfortable pedal. This series is equipped with a new LCD display that clearly shows speed, working hours, battery status, mileage and parking status. There are also various functional configurations, such as the OPS system, Telematics and a mapping system. These features not only ensure safety, but also make management easier and more efficient. ultra-functional charging options The built-in charger with plug-in battery meets various working conditions. A fast charge function is optionally available. The EP-developed Li-Ion battery, equipped with CAN and BMS, ensures optimum ease of use. The rain-proof charging port ensures safe charging even in wet conditions. Proven quality The EFL series is built with quality components and the robust construction guarantees a long service life. Multi-purpose charging options The built-in charger with plug-in battery meets various working conditions. A fast charge function is optionally available. The EP-developed Li-Ion battery, equipped with CAN and BMS, ensures optimal ease of use. The rain-proof charging port ensures safe charging even in wet conditions. Proven quality The EFL series is built with quality components and its robust construction guarantees a long service life. Invest in a forklift that is always there for you!
